

EAS Batteries GmbH is a manufacturer of large format cylindrical lithium-ion cells and battery systems, which are used in industrial, aviation, marine and automotive sectors. Thanks to the flexibility of the production line, EAS can adapt its products to special customer requirements and is the ideal partner for customized cells and battery systems for demanding requirements as well as for cell and battery development projects.

To strengthen our team we are looking for a **Manager Internal Sales***

Work location: Sales Office Hamburg / Home Office

Your tasks and responsibilities

- Support the Sales team and the head of Sales & Marketing
- Qualify and process customer inquiries in German and English
- Support quote creation and tracking
- Define workflow procedures in close alignment with the department manager
- Take over operational and organisational tasks in Marketing, e. g. coordination of agencies and media planning
- Facilitate the design and further development of product support / advertising material and information documents
- Support planning and execution of marketing actions and campaigns
- Coordinate all activities for exhibitions, conferences and events

Your qualifications

- Experiences in set up, organization and management of internal sales
- Excellent verbal and written command of the German and English language
- Experiences in working with CRM systems (e. g. Salesforce) and MS Office
- Commercial or technical education, preferably in the maritime field
- Self-assured with excellent organisational skills
- First experiences in the field of Marketing

Our offer

- Attractive working environment with development opportunities in the future market of battery technology
- Pleasant working atmosphere in a fast-growing business
- Short decision-making paths
- Permanent contract
- 30 days of vacation per year
- Capital-forming benefits
- Attractive location in Hamburg, close to Altona station, with direct access to busses and trains

We offer you a permanent full-time position, an attractive working environment, exciting development opportunities and a very good working atmosphere.

Would you like to join us in driving forward the development of innovative energy storage systems? Then we look forward to receiving your application documents by mail or e-mail (please send all documents together as one PDF file in the attachment) to:
